Kodi Control Shortcuts

To access **"Kodi Settings"** select **"Quit Kodi"** on Home Screen then **"Settings"** in the menupopup.

To access **"Addon Settings"** right click mouse or keyboard letter C button on the SELECTED addon.

Navigate around Kodi with keyboard Arrow keys, Backspace and Enter or with your mouse.

Keep pressing Esc/Back button if you need to get back to Home Screen.

Keyboard shortcuts below when playing videos.

Full screen/Windowed	Backslash \ Button(next to letter Z)
View Mode/Aspect Ratio	Letter Z Button
Play/Pause	Spacebar Button
Mute	F8 Button
Stop	Letter X Button
Forward 10 seconds	Arrow Right Button
Backward 10 seconds	Arrow Left Button
Forward 5 minutes	Arrow Up Button
Backward 5 minutes	Arrow Down Button
Back to Previous Page	Backspace Button
OK	Enter Button
Volume Up	Minus (-) Button
Volume Down	Plus (+) Button

To search alternative subtitles because of out of sync, press Letter M on keyboard or move mouse to bring up "On Screen Controls" then at the bottom select the "Comment Button" next to "Sound Button" to choose alternative subtitles to download.

To add more **Video Addons** go to **"Quit Kodi>Settings>Add-ons>Get Add-ons>Custom Add-ons Repository>Video Add-ons"**

You can also use your smartphones to remote control Kodi (Both devices need to be on the same WiFi connection.)

Install Official Kodi Remote App from **Apple Store** or **Google Play**.

Enter the IP Address and Port Number from your main **"Home Screen"** top left hand corner in to the settings of the app.

Username and password should be blank.

Press Save or Ok to use remote.
